KSIS Point of Contact:

The email below was sent to School Nutrition Directors from the Division of School and Community Nutrition. Please share with other appropriate district personnel as needed.

**From:** Blunt, Brad - Division of School and Community Nutrition  
**Sent:** Friday, February 08, 2013 3:27 PM  
**To:** All State School Nutrition Directors  
**Subject:** Changes to FRAM Eligibility Import Wizard - Source of Direct Certification Required  
**Importance:** High

Dear Food Service Director:

Attached is important information for you and your POS vendor regarding Infinite Campus and the import of meal status from your POS into Infinite Campus.

In brief, on February 6 Infinite Campus updated the FRAM Eligibility Import Wizard with the E.1302 release pack. To comply with the new FNS-742 form, this update now requires the source of direct certification (i.e., KTAP, SNAP, Medicaid, etc.) when creating a new FRAM record. Thus, beginning **July 1, 2013**, any POS data export file must contain the source of direct certification to properly interface with IC. More information is included in the attached letter.

Please forward this information to your POS vendor so they can comply with this new requirement.

Also, the update on February 6 also included several enhancements to FRAM. I will send a separate email that highlights these changes.

Let me know if you have any questions on the updates to FRAM.

Best regards,  
Brad
